

# DO-Touch.NET

## MEMBER SPOTLIGHT

### DR. AMY DEAN, DO

As an OMM hospitalist for Trinity Health Muskegon, Michigan, I use OMM daily in the hospital to support the healing process in patients with a variety of health challenges. These challenges include but are not limited to newborns with feeding difficulties, multifracture trauma patients, adults hospitalized with COPD exacerbation, pneumonia, ileus and stroke. The best part is the patients see the benefits.

When asked what excites me about [DO-Touch.NET](https://dotouchnet.org), is that this group is interested in researching OMM beyond its use for musculoskeletal pain, such as with the Post COVID-19 study underway. Also exciting is the comradery and discussions that take place on the journal club webinars. They are informative and a lot of fun.

## NETWORK UPDATES

- Our new network process for submitting research ideas is live! Members interested in submitting research ideas to the DO-Touch.NET executive committee can submit a "Letter of Intent" for their proposed study. Research mentorship is available to all DO-Touch.NET members to help develop research ideas approved by the executive committee.
- Our study on Post-COVID and OMT has been funded by the AOA and ATSU Strategic Research Fund! We will be reaching out to interested sites soon to begin coordination for data collection! If you are interested in participating as a site in this study, please reach out to [dotouchnet@atsu.edu](mailto:dotouchnet@atsu.edu).
- Our first card study will be coming soon! Keep an eye out for emails with more information!

## UPCOMING EVENTS

### ➔ Let's Talk About OMM Research! EPISODE 35

"Neurophysiologic Mechanisms of  
Manual Therapies"  
William Reed, DC, PhD

**Register Today!**

### ➔ 2024 DO-Touch.NET Annual Meeting MARK YOUR CALENDARS!

When - Week of March 4th, 2024 (Precise date to come)

Where - The Broadmoor, Colorado Springs, Colorado, US  
ZOOM Attendance will be available
