

DO-Touch.NET

MEMBER SPOTLIGHT

WILLIAM BROOKS, DO

My clinical practice began in 1981 under the inspirational tutelage of Robert Fulford, DO. Four decades of successfully resolving complex, tertiary, chronic pain syndromes on an enduring basis continues to deepen my passion for OMM. Having had academic appointments in orthopedic surgery and now neurology in allopathic COMs as well as in OPP, it is clear that garnering scientific verification of the efficacy, safety, and cost effectiveness of OMM is essential! I've been a member and enthusiastic supporter of DO-Touch almost from its' inception as it plays a vital role in that process and is an important source of up-to-date scientific education!

NETWORK UPDATES

- Our study on Post-COVID and OMT has launched at the Gutensohn Clinic in Kirksville, MO! We are officially live with the study! We will be reaching out to interested sites soon to begin coordination for data collection once the last of our study documentation has been cleared by the ATSU legal department! If you are interested in participating as a site in this study, please reach out to dotouchnet@atsu.edu.
- Our first card study will be coming soon! The focus of this card study will be the use of OMT in treating non-musculoskeletal conditions. It has cleared IRB approval and we are finalizing clinician recruitment. Keep an eye out for emails with more information to sign up for the study!
