

# DO-Touch.NET

## MEMBER SPOTLIGHT

### NATHALIE HAMEL, DO

I am an osteopath from the province of Quebec in Canada with a background of medical lab technician and a teacher in a biomedical analysis program. My post-graduate training is in the field of biodynamic. Last summer, I did a road trip of more than 3600 kilometers from home to ATSU in Kirksville. I met passionate people there and they shared great experiences with me. The opportunity to develop continuing education projects that I saw there impressed me a lot. I came back home with a new spark for continuing education and osteopathic research.

## NETWORK UPDATES

- Our "Let's Talk About OMM Research!" series is changing this year to a Winter, Spring, and Fall series. Starting April 2024, the "Let's Talk About OMM Research!" series will be on the third Thursday of the month at 1 PM US Central Time (see below). Refer to the January 19th email for the full schedule. Events will be in the following months:

### Winter Series

January  
February

### Spring Series

April  
May

### Fall Series

September  
October  
November

- Our first card study on the use of OMT in treating non-musculoskeletal conditions is live. We are currently collecting data from members who have signed up to participate in the study. Please respond to the clinician recruitment email to sign up for the study or email [dotouchnet@atsu.edu](mailto:dotouchnet@atsu.edu) for more information!
