## RESEARCH OPPORTUNITY THE USE OF OMT IN THE TREATMENT OF GERD

The Research Team is interested in your feedback related to your use of osteopathic manipulative treatment (OMT) on patients with gastroesophageal reflux disease (GERD), including your perceived ability to improve or resolve symptoms, areas targeted during treatment, and techniques used during treatment. This study intends to investigate among osteopathic clinicians how often OMT is used for this condition, apparent efficacy of OMT as a treatment, which regions of treatment are targeted (e.g., autonomic nervous system, diaphragm), and which OMT techniques are being used. This will both confirm the impetus and guide the creation of a protocol for a further study.

**This survey should only take a maximum of 5 minutes to complete.**

**If you completed this survey at the 2025 AAO Convocation or previously, then your participation in this study is complete.**

Your response will be anonymous and protected within REDCap. Your data will be password protected and only be accessible by the research team. Your data will be maintained for 3 years beyond completion of the research project and then destroyed.

By accessing and completing the survey you consent to participating in this project.

## UPCOMING EVENTS

➔

**2025 DO-TOUCH.NET ANNUAL MEETING**  
 ENGAGE AND ADVANCE: CULTIVATING THE DO-TOUCH.NET COMMUNITY  
**REGISTRATION OPEN!**

**VIRTUAL ON GATHERTOWN**  
 10:00 AM TO 2:30 PM  
 US CENTRAL TIME

<https://redcap.link/2025AnnualMeeting>

**JUNE | 7<sup>TH</sup> | 2025**

MEETING AVAILABILITY VIA GATHERTOWN  
 PLEASE CONTACT [DOTOUCHNET@ATSU.EDU](mailto:DOTOUCHNET@ATSU.EDU) WITH ANY QUESTIONS OR ISSUES

## Register Today!

**“Let’s Talk About OMM Research!”**  
 Network Update  
**“Upcoming Changes to our ‘Let’s Talk About OMM Research!’ Webinar Series”**  
 EPISODE 48  
 Corey Luebbering, MPH  
**May 15 at 1 PM US Central Time**
