NETWORK UPDATES

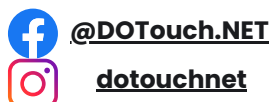

- The Pediatric SIG is live with their study titled "The Use of OMT in the Treatment of Anxiety in Adolescents: A Retrospective Analysis." You can sign up for this study using the QR code below. This study:
 - investigates the frequency in which osteopathy clinicians currently use OMT in the treatment of adolescent anxiety; and
 - determines which OMT modalities and techniques are used in that treatment of anxiety.
- If you are interested in participating in this study, the project sign up will set you up with a meeting with the project coordinator to discuss the details of the project and answer any questions you may have regarding your participation and data collection.
